

Presents:

Banjo Setup Secrets The Banjo Revolution... Great Sound in Action

Tom Nechville and Friends present Capos Music Banjo Workshop

Tuesday April 30th 6 PM **No Cost to Attend**

Understanding Conventional Banjos

Go beyond standard banjo setup conventions and learn what really makes the banjo sound and play its best. Tom will have tips on improving your traditional banjo and show solutions to common problems. Tom may invite you to receive a free set-up during the class. He will cover compensated bridges, proper neck, tailpiece, head adjustments and more

Want a Revolution?

Nechville is leading the "Banjo Revolution" into new territory with his unique designs for acoustic and electric banjos. Tom will have several instruments on display for you to jam with and Tom will perform some music accompanied by local players. You'll see inside the Nechville mechanism and learn what makes Helical-Mounting so special.

Hear the Results

Every player wants great sound, Tom makes it easy to dial in the sound and feel that will inspire you to new heights. Hear various tonal possibilities of Nechville acoustics during a live mini concert and jam with local players.

Tom Nechville has been in business since 1989, manufacturing professional banjos and related accessories. His patented Helimount frame, adjustable neck attachment, beveled armrest, and compensated Enterprise bridges are setting the professional standard for players worldwide. His book, *The Dynamics of Banjo Sound* is a definitive guide for banjo set up.

Nechville Musical Products is always innovating to meet the changing needs of modern musicians. Nechville's refined acoustic and electric banjo designs have helped direct a new worldwide spotlight on the banjo.
