

Aquila Banjo String Gauges

AQUILA 1B "CLASSICAL" BANJO SET G TUNING, MEDIUM TENSION - Nylgut is a new formulation of polymerized plastic with additives patented by Aquila and has the closest sound to gut strings we have heard. The "Classical" set is shorter (about 41") and lighter than the "Minstrel" set.	1 = .0225 2 = .027 3 = .0315 4 = .0250w 5 = .0245
AQUILA 2B "CLASSICAL" BANJO SET G TUNING, LIGHT TENSION - Set is similar to 1B, but lighter. Nylgut with wound 4th.	1 = .0205 2 = .024 3 = .027 4 = .0305w 5 = .02
AQUILA 5B 5-STRING BANJO SET RED SERIES 4TH STRING - Same as 1B, with the new monofilament Red Series 4th string instead of a wound 4th.	1 = .0225 2 = .027 3 = .0315 4 = .04 5 = .0245
AQUILA 6B 5-STRING BANJO SET RED SERIES 4TH STRING - Same as 2B, with the new monofilament Red Series 4th string instead of a wound 4th.	1 = .0205 2 = .024 3 = .027 4 = .04 5 = .02
AQUILA 7B "MINSTREL" BANJO SET LOW (D or E) TUNING - These strings are made in Italy from a synthetic material called "Nylgut". This set is longer (about 51") and heavier than the "Classical" set. Intended for lower tunings, not likely to survive being brought up to standard G tuning.	1 = .0275 2 = .0325 3 = .039 4 = .028w 5 = .0275
AQUILA 11B 5-STRING BANJO SET RED SERIES - All five strings are made from the new (2013) red material created by Aquila. Their Normal tension for 5-string banjo.	1 = .0205 2 = .0235 3 = .0275 4 = .0335 5 = .0225
