“FD →” indicates a finger drag that kicks off the Galax Lick.

Note: Fortune is normally played in the key of D with the banjo in Double D tuning. In the YouTube video that demonstrates this rendition (<https://youtu.be/of1B0q1SLPE>), I am playing a minstrel banjo that is in the relative Double D tuning, but is pitched down 7 half steps from Double D (dGDGA), putting it in the key of G.
