I know our days are
Heaven sent Lord knows I know not where they went shake my head and I wonder how
I'll ever get to Heaven now An Angel came one winter dawn
you shoulda seen what she had on wind was whistlin like a train she left again
just like she came Chorus
I move around a lot these days
honky tonks and broad freeways the same thing that I've always done but I'm older now I get
tired some Chorus
Banjo Break
Those who think they hold the cards I send out my kind regards those who
love and those who care I'll meet you down the road somewhere Chorus
etc...
