

Jingle Bells Banjo...

By Gerald Jones

It's getting to be Christmas time again so I thought I'd include a fun, easy to play version of Jingle Bells. It stays pretty close to the melody and makes a very good seasonal sing-along. Listen to the mp3 and play along. Also check the December 2003 archive for my version of Carol of the Bells.

Jingle Bells

Arranged by Gerald Jones

The image displays a complete banjo tablature for the song "Jingle Bells". It is organized into eight horizontal systems, each representing a line of music. Each system consists of a five-line staff with fret numbers (0-3) and fingerings (T, M, I, M) written below it. Above the staff, chord diagrams are provided for each system, including G, C, D, and A. The tablature includes various musical notations such as beamed eighth notes, triplets, and slurs. The piece concludes with a double bar line at the end of the eighth system.
